

## BRANDYWINE LEARNING CENTER

— IGNITE A PASSION FOR LEARNING —

Dear Brandywine School of Learning Family and Friends,

I hope this letter finds you and your family healthy and safe. As part of a family, community member, and founder of BLC, I understand how difficult it is to navigate in these unsettling times and want to let you know we are prioritizing our commitment to our student community. As we anticipate positive days to come and the arrival of summer in a couple months, families continue to enroll in camp and we currently expect all BLC Programs to run as planned.

For the past 17 years, safety has been our highest priority. This extends to our commitment to the health and safety of our campers and BLC team. While we look forward to transitioning back to a more social setting, know that we are working with health and safety experts to proactively monitor the situation and safety protocols to ensure that we stay current with CDC/local health guidelines to keep our students and teachers safe.

Many of you have close ties with our team members. It is important that we take care of them and their families in the short term, so that in the long term, we can continue to build an exceptional program and organization that transforms young lives and provides jobs and opportunities for people of all ages. We are passionate about developing engaging, education-based programs to help your children blossom and driven to provide multi-faceted curriculum and unforgettable experiences that you can expect from BLC.

We are here to support you in any way, so feel free to contact us at (610) 827-5678 or send us an email at [success@brandywinelearningcenter.com](mailto:success@brandywinelearningcenter.com). Thank you for being a valued member of the BLC Family, and we look forward to providing you and your child with the program you deserve.

Be safe and stay positive.

Sincerely,

Gina DiGiacomo

Executive Director and Founder
